DETAILED ACTION

Amended Listing of Claims

1. In view of the Examiner's Amendment submitted on 05-December-2006, the following changes are made to the *Listing of Claims* submitted by the Applicant on **23-October-2006**.

2. (Canceled)

19. (Previously Amended) A digital data processing method accessing a peripheral device, the method comprising

intercepting, with a filter driver executing on a first node, a request ("first access request") by that node for access to the peripheral device,

at least initiating transfer of the data designated by that request between the first node and the peripheral device using file mapping obtained from a second node;

wherein the initiating step includes at least initiating transfer of data designated by the first access request between the first node and the peripheral device over a communications pathway that differs from that over which a file system executing on at least one of the first and second nodes would transfer data in response to the first access request.

25. (Canceled)
